同济大学上海 – Tongji Universiti Shanghai (China)
09/2015 – 07/2016
Bachelor's degree in Information Technology Engineering – Politong Cultural Exchange

VOLUNTEER EXPERIENCE OR LEADERSHIP

During my last high school year, I was president of my hometown Student's Council. I managed a group of 15 student representatives with whom I organized several events targeted to students of various ages.

SKILLS

Programming Languages: C, PHP, Python, Javascript, HTML5, CSS3, R, Java.

Database Design: MySQL, Relational Algebra.

Continuous integration and continuous deployment (Wercker, Travis, Jenkins); containerization techniques and software (Docker, Kubernetes).

Basic knowledge of DevOPS tools and techniques.

Software Process Modeling (UML); Software Version Control (Git); Software Team and Documentation Management (Atlassian JIRA, Atlassian Confluence, JQL).

Office Suite software (Microsoft Word, Excel, PowerPoint and Visio 2016).

Adobe Creative Cloud software (Photoshop, Premiere, After Effects, Illustrator).

Basic knowledge of Electronics and simulations.

Basic knowledge of Commercial and Copyright Law and Economics.

Languages: Italian (mother tongue), English (professional knowledge), Spanish (basic knowledge), Chinese (basic knowledge).

Team Management.

Entrepreneurship.

HOBBIES

Reading: I enjoy reading both scientific papers regarding Computer Sciences or other fields, and fictional books that help me take a break from my day-to-day activities.

Traveling: I like travelling and exploring new places whilst getting to know new people and new cultures.

Music: I am a fond music fan, I like listening, playing and writing music of all kinds and genres.

Writing: I am a passionate writer; my High School studies were highly focused on literature and understanding language and how to communicate through written words. I have written and got published online about different topics and through different channels.

Photography: art has always fascinated me and in photography I found a way to express myself in a less analytical and in a more creative way.
